

I'm not robot!

On your iPhone or iPad, you can get real-time traffic information in the Today view without opening the Google Maps app. When you add the Google Traffic widget, you'll see: Traffic information and delays in your area Crashes, construction, or road closures nearby Get traffic information in the Today view This feature is available on your iPhone or iPad on iOS 11 and above. On the lock screen of your iPhone or iPad, swipe left to right until you see a list of widgets. Scroll to the bottom and tap Edit. Tap Add "Google Traffic". Tap Done. You should see nearby traffic information in the Today view. Skip to content Live Traffic NSW provides regular updates about traffic conditions that affect your journey on NSW roads. This information includes current hazards and major events such as floods, roadworks and traffic incidents. You can also plan your trip. Each route shows the estimated travel time, a list of hazards, rest areas and traffic cameras. For rolling traffic updates and alerts, visit Live Traffic NSW, or follow them on Facebook or Twitter. If you want to report a traffic or road hazard, visit Report a traffic accident, breakdown or other incident. You'll be taken to another website. © Automobile Association Developments Ltd. 2018 Roads conditions and closures, hazard, traffic camera data are compiled by RACQ in partnership with The Department of Transport and Main Roads (QLD), Roads and Maritime Services (NSW), VicRoads (VIC), Police Services and other government sources/websites. Fuel data provided by Informed Sources Pty. Ltd.. ©2022 RACQ If you're planning a journey, our new RAC Traffic News tool can help you to avoid delays caused by accidents and roadworks. It's now even easier for drivers to see live traffic updates, along a selected journey and route, or around a specific location. There's nothing more frustrating for motorists than getting caught up in tailbacks and unexpected delays, especially if this adds significant time to a journey. Whether you are planning a long weekend drive to visit friends or family elsewhere in the UK or simply commuting to work during rush hour, a bit of preparation before making the journey can really help. Our traffic report service can improve your ability to plan your journeys - and you can choose to print, email or share the traffic report too if you like. Live Traffic Reports It's simple to get live RAC traffic reports for your area, which means you'll always stay informed about delays, slow-moving traffic and any other incidents that could affect your journey. Select the "Location" tab and you'll be able to get traffic news for your location by adding your postcode, city or town. You'll get a live picture of traffic in and around that area, and you'll also be able to save the details as your default location. This is an excellent feature for drivers. Traffic news results show all the issues that might cause problems and delays - roadworks, temporary traffic lights and accidents. You'll also get updates on the busiest sections of road, indicating how traffic is flowing. If all is going smoothly, for example, you'll be informed that traffic is moving well - reassuring news as you set off and start driving. Traffic News Across the UK You can also use the RAC traffic tool to view the overall picture of traffic in England. You can zoom in and out of the map to identify roadworks across the UK, and enter the details of any route to check for problems with traffic. If you're a regular driver on motorways, we also have some dedicated pages on the main motorways in the UK. These provide live updates on traffic flow, accident hotspots and the busiest junctions on each motorway. It's a great help if part of your journey involves driving on a particular motorway and you want to avoid delays. For more details, visit our selection of motorway and cities pages: M1 traffic news M2 traffic news M3 traffic news M4 traffic news M5 traffic news M6 traffic news M11 traffic news M20 traffic news M23 traffic news M25 traffic news M27 traffic news M40 traffic news M42 traffic news M61 traffic news A1 traffic news A2 traffic news A3 traffic news A12 traffic news A13 traffic news A14 traffic news A30 traffic news A34 traffic news A38 traffic news A40 traffic news A55 traffic news City pages: Birmingham traffic news Bristol traffic news Dartford traffic news Dover traffic news Edinburgh traffic news Essex traffic news Glasgow traffic news Kent traffic news London traffic news Manchester traffic news Newcastle traffic news Use our route planner service to view maps, plan your journey and get driving directions - wherever you're travelling in the UK. It is part of a suite of motoring-services products such as our 5 Star Defaqto breakdown cover and car insurance, including temporary car insurance, learner driver insurance, black box car insurance, and Pay by Mile car insurance. If you're thinking of travelling in Europe, find out more about our European breakdown cover, travel insurance and car hire excess insurance. Registered Office: Pitheavlis, Perth PH2 0NH. Aviva Insurance Limited are authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority. Notice of closed section due to landslide disaster due to heavy rain on Hokuriku Expwy As of Saturday, August 6, 13:00 We will inform you of the closed section in our jurisdiction due to heavy rain.In addition, due to the influx of earth and sand from outside the area due to heavy rain, restoration work is being carried out. Currently, restoration work is underway, but it is expected that the road will be closed for a long time, so please consider detouring. [Latest status of damage and countermeasures] · There was a large-scale sediment inflow near the entrance of the Tsuruga Tunnel, and a field survey has been underway since yesterday. · In addition, emergency measures are being implemented for two small-scale disaster areas. [Future Prospects]At this time, it is undecided when the suspension of traffic between Tsuruga IC and Imajo IC will be lifted.However, only for emergency vehicles, measures are being taken to ensure early passage in the vertical direction by utilizing the in-In-bound line of the section in question. ⒸOn the In-bound line, measures are being taken to complete emergency measures around the middle of next week.Large sandbags, large piles and sheet piles will be installed in the future during the removal of large-scale sediment runoff.Emergency restoration plannedⒸ The timing of completion of emergency measures for the Out-bound line is undecided.Due to the influx of sediment from outside the road area, the amount of sedimentation is quite large, so in the morning of Saturday, August 6,Conducted field joint research with Fukui Prefecture, Tsuruga City, and Hokuriku Electric Power Company.Based on the results of the investigation, we plan to promptly formulate the necessary measures and processes, and indicate the prospects for restoration. ■ Closed section Road Name direction Section Event E8Hokuriku Expressway Up Takefu IC-Tsuruga IC Sediment disaster under Tsuruga IC-Imajo IC Sediment disaster \*Please check the latest traffic information, as general roads such as parallel national roads are also closed. Road closures and wide-area detour routes Click here for an image of how the road closures will be lifted due to rain. ■ Please check the latest traffic information when you go out. · Japan Road Traffic Information Center (JARTIC) · IHighway Central Japan (NEXCO CENTRAL) · NEXCO CENTRAL Kanazawa Regional Head Office Regional Head Office official twitter [Main disaster situation] (around 10:00 on August 5) (around 10:00 on August 5) (around 12:00 on August 5) (around 12:00 on August 5) (around 15:00 on August 5) [Photo of the damaged area]Around 49.7 KP on the Hokuriku Expressway In-bound Line Around 50.7 KP on the Hokuriku Expressway Out-bound Line Around 50.5 KP on the Hokuriku Expressway Out-bound Line [Situation of night work] Notice of closed section due to landslide disaster due to heavy rain on Shin-Meishin Expwy As of Saturday, August 6, 14:00 Due to landslides, the following sections are closed to traffic. Road Name direction Section Start date and time Cancellation date and time Event E1Ashin-Meishin Expressway Kameyama connecting road under Kameyama JCT ~ Kameyamanishi JCT 8/6 7:30 TBC Sediment disaster ■ Please check the latest traffic information when you go out. · Japan Road Traffic Information Center (JARTIC) · IHighway Central Japan (NEXCO CENTRAL) We provide realtime road traffic information on expressways nationwide. If you register frequently used routes as "My Routes", you can avail of a free service that notifies you of traffic conditions such as road closures and traffic congestion. Provided by JARTIC: -Hour-minute Current Search by Route By entering your departure and arrival interchanges, you can search for forecasted traffic congestion on the day of your trip, and along your route until you reach your destination (only on routes managed by the three NEXCO companies.) Forecasted Traffic Congestion Route Search Major Traffic Congestion Areas This is a summary of areas on expressways under the jurisdiction of NEXCO CENTRAL, where congestion due to traffic convergence is likely to occur. Traffic Congestion Navigation Map You can check traffic congestion conditions and driving precautions along expressways under the jurisdiction of NEXCO CENTRAL, along with road maps. List of Highway Telephone Numbers We provide the latest expressway information such as traffic congestion and accidents through automatic voice updates on dedicated phone numbers for each region. This information is updated every 5 minutes, and is available 24 hours a day. Please use this service before your trip or while driving. Road Traffic Information "Now !!" Current road traffic information and conditions are announced by the Japan Road Traffic Information Center (JARTIC) every 5 minutes.
